

CAPABILITY STATEMENT

RESEARCH & POLICY DEVELOPMENT

Humanitarian Advisory Group is an Australian company founded in 2012 to elevate the profile of humanitarian action in the Australasian and Pacific region. We provide a unique space for thinking, technical advice, training, research and evaluations that positively contribute to excellence in humanitarian practice. We have adopted a social enterprise business model which means the projects we work on and the way we conduct business reflect our core values.

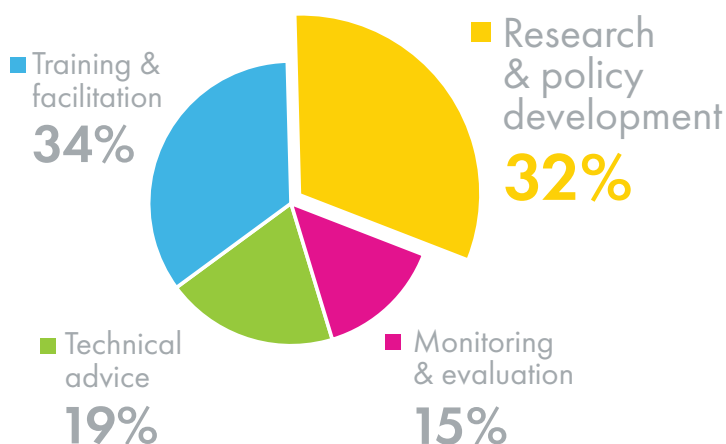

CORE VALUES

- Using business to bring about positive change in the world
- Supporting women in humanitarian leadership
- Partnering with national consultants to deliver superior technical support
- Supporting emerging practitioners to gain knowledge and experience

RESEARCH 32%

FOCUS AREAS

HAG has a strong track record in the area of **independent research** and supporting organisations with **policy development**. Together with our rigorous methodologies and network of scholars and practitioners, we ensure our research is **accessible**, **applicable** and **relevant**. In undertaking our research we endeavour to include a national consultant and an internship wherever possible.

ACCESSIBLE APPLICABLE RELEVANT

- Annual Civil Society Report Card on Australia’s National Action Plan on Women, Peace & Security – ACFID, ANU Gender Institute, UN Women National Committee Australia, and WILPF

EXAMPLE OF RECENT PROJECT

Humanitarian Advisory Group joined forces with the Australian Civil-Military Centre (ACMC) and the United Nations Office for the Coordination of Humanitarian Affairs (UNOCHA) in producing the publication Humanitarian Civil-Military Coordination in Emergencies: towards a predictable model, launched in 2017.

This publication is an initiative of the Regional Consultative Group (RCG) on Humanitarian Civil-Military Coordination for Asia and the Pacific. The RCG seeks to not only link the region with the Global Consultative Group on Humanitarian Civil-Military Coordination, but also to provide a learning platform for good practice. This publication focuses on Asia and the five priority countries in this region that are highly vulnerable to large-scale natural disasters: Bangladesh, Indonesia, Myanmar, Nepal, and the Philippines.
